EXAMINER'S AMENDMENT

1. Applicant's election of claims 16-27 is acknowledged. Because Applicant did not distinctly and specifically point out the supposed error in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). **Applicant have the right to file a divisional application covering the subject matter of the non-elected claims 1-15.**

The traversal is on the ground(s) that see the election paper. This is not found persuasive because the fields of search for method' and device claims are NOT coextensive and the determinations of patentability of method and device claims are different, that is process limitations and device limitations are given weight differently in determining the patentability of the claimed inventions. Also, the strategies for doing text searching of the device claims and method claims are different. Thus, separate searches are required.

The requirement is still deemed proper and is therefore made **FINAL**.

2. An examiner's amendment to the record appears below. Should the change and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-15.

REASONS FOR ALLOWANCE

3. Claims 16-27 are allowed.

Art Unit: 2818

4. The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests as cited in claims 1: forming a composite dielectric layer on the lower electrode, the composite dielectric layer including an Al_2O_3 dielectric layer having a first thickness and an HfO_2 dielectric layer having a second thickness, the second thickness being smaller than or equal to the first thickness.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Halliyal et al (6,674,138 B1): Use of High K Dielectric Materials in Modified ONO Structure for Semiconductor Devices.
